Dear Ruemel and Camille,

I am a Montara resident at 1112 Cedar Street, Montara, where I have lived since 2004. I have boarded my horses and Redtail Ranch, formerly Renegade Ranch, since 1997. I'd like to provide some feedback on the proposed building at the private property of Lori Rhodes and Dave Morris (1490 Cypress Street, Montara).

First of all, having been at the ranch since 1997, Lori and Dave have poured not only their heart but also a lot of money into improving the ranch. Beginning with improving the driveway, to adding safe surfaces for us and our horses to walk on but also that manure is being taken off the property.

I have looked at the current story poles of their dream home and I love the shape.

I have looked at the proposed plans and am convinced that the design will integrate into our beautiful nature and this recessed little valley.

I drive past the property daily and can not even see where the house will be built.

I thoroughly wish that you will support Lori and Dave in building this lovely house.

They have my full support.

:Please contact me with any questions,
Sarah Schilbach
